

RIISING SEA LEVELS, WARMING AND ACIDIFICATION OF THE WATER, MELTING ICE, FLOODING, SPECIES BECOMING EXTINCT ...

Climate change has grave consequences for the world's seas. And now we want your ideas!
How can we save our seas and their coasts from global climate change?

You might find the following questions helpful:

- WHY ARE THE SEAS IMPORTANT TO YOU? WHAT DO YOU DEMAND FROM POLITICIANS?**
- HOW CAN WE ACHIEVE THE UN'S 17 SUSTAINABLE DEVELOPMENT GOALS BY 2030?**
- WHAT NEW SCIENTIFIC DISCOVERIES DO WE NEED FOR MARINE AND COASTAL CONSERVATION?**
- WHAT CAN WE ALL DO TO PROTECT OUR SEAS?**

You can submit by **14.11.2021** to the email address info@climateproject.de:

- 1. ARTICLES**
- 2. FOTOS, PHOTOSSETS, COLLAGES, IMAGES, CARICATURES**
- 3. VIDEOS**

Great prizes are waiting for you!

More info on the entry conditions at www.climateproject.de and on 

The competition entries will be exhibited in cooperation with the German Marine Foundation on the floating museum "Cap San Diego" in Hamburg, Germany.

The project constitutes part of the UN Decade of Ocean Research for Sustainable Development.
